

Jan. 27th Agenda

1. M7G2 Pre-test
2. Introduction into Transformation power point
3. Reflection Activity
4. Homework: Study Guide 10-8/Reflections

Jan 27-9:32 AM

Reflection Activity # 1

1. Fold a piece of graph paper along the x axis. Make sure the graphing paper side is out.
2. Make a polygon shape with at least four sides on the paper and press very hard with the pencil point or pushpin so that the impression can be seen on the other side as a reflection.
3. Make a table of the coordinates for the first polygon shape and a table of coordinates for the "reflected" polygon shape

Jan 27-10:22 AM

Reflection Activity # 2

1. Fold a piece of graph paper along the y axis. Make sure the graphing paper side is out.
2. Complete the same steps as activity #1.

Jan 27-10:26 AM
